Department of Electrical and Electronics Engineering

"Two days Workshop on "Power System Analysis and Protection using Mi Power from 10-11 February 2016"

Reliable power management is need of the day where power demand is increasing day by day. To understand the challenges in the power delivery systems, Electrical and Electronics Engineering department of Shri Shankaracharya Technical Campus, in association with the Power Research and development consultants (PRDC), Bangalore had arranged Two days technical workshop on the "**Power System Analysis and Protection using Mi-Power software**". The workshop was intended for the professionals from Academic and Industry. More than 50 participants which include the experts from academic institutions and Chattisgarh State Electricity board and the faculty members from SSTC and PRDC actively participated in the brainstorming sessions.

Dr Shekhar Kelapure of PRDC highlighted the growing complexity in power system operations and protection and role of simulation software and automation in improving the reliability. The role of these technologies in building the Smart grid and Smart city initiatives by Govt of India has also been discussed.
